

# PRAJWAL R K

CSE Student • Full-Stack Web Developer • Java Programmer

☎ +91 8660664821 • ✉ prajwalrk2004@gmail.com • 🔗 LinkedIn • 🐙 GitHub • 📁 Portfolio

## Profile

Dedicated Computer Science student with expertise in full-stack web development and Java programming. Skilled in developing robust applications, including a real-time chat application using Flutter and Firebase, and a responsive portfolio website. Proficient in Java, JavaScript, Python, and modern frameworks like React and Spring Boot. Experienced with tools such as Git, Firebase, and VS Code, with a strong foundation in OOP, data structures, and API integration. Passionate about leveraging technology to create innovative solutions and a collaborative team player with a proven track record in hackathons and certifications.

## Education

### Bachelor of Technology (B.Tech), Computer Science & Engineering

Cambridge Institute of Technology, Bangalore

Aug 2022–Jun 2026

CGPA: 8.6/10

- Key Courses: Data Structures, Database Management Systems(DBMS), Operating Systems, Web Development, OOPs, Computer Networks, Software Engineering, Design and Analysis of Algorithms(DAA)

## Skills

### • Technical Skills

- **Languages:** Java, JavaScript, Python, C, HTML, CSS
  - **Frameworks & Libraries:** React, Node.js, Flask, Tailwind CSS, Spring Boot
  - **Database Technologies:** Firebase Realtime Database, MySQL, PostgreSQL, MongoDB
  - **Tools & Platforms:** Git, GitHub, VS Code, Eclipse, Firebase Studio, Cursor
  - **Design & UI:** Figma
  - **Key Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, API Integration
- ### • Soft Skills:
- Problem Solving, Communication, Team Collaboration, Time Management, Adaptability

## Projects

### Real-Time Chat Application

Flutter, Firebase, Dart (Mobile & Web)

- Built a real-time chat application using Flutter for cross-platform support (web and mobile).
- Integrated Firebase Authentication and Realtime Database for seamless messaging. Designed a responsive UI with support for chat history and user sign-in.

### Secret Santa Game Application

Java, Collections Framework

- Developed a Java-based console application to automate Secret Santa gift pairings.
- Ensured random, fair assignments with no self-assignments using Random and HashMap. Implemented OOP principles for clean, reusable code.

### Bank Management System

Java

- Created a console-based application to simulate basic banking operations like deposit, withdrawal, and balance check.
- Used classes, objects, and control statements to implement features. Practiced OOP, modular design, and user input handling.

### Calculator Application

Java (Swing)

- Built a basic GUI calculator for arithmetic operations using Java Swing.
- Implemented event-driven programming and responsive design. Practiced GUI layout management and exception handling.

### Weather App

JavaScript, HTML, CSS, OpenWeatherMap API

- Created a responsive web application to fetch and display real-time weather data.
- Showed temperature, humidity, and conditions based on user input city/location. Practiced API integration and error handling.

## Certifications

- Programming In Java
- Problem Solving Through Programming In C
- Programming using Java
- Python Foundation Certification

## Awards & Achievements

- Completed Mini Project: Developed a Real-Time Chat Application using Flutter for both mobile and web platforms.
- Java Mini Project: Built a Secret Santa Gift Exchange application using Java and the Collections Framework.
- SAP Hackathon Participant: Contributed to a sustainability-focused project using SAP tools and technologies.
- Samsung Innovation Campus – Python Certification: Completed training and created a Bank Management System project.

## Languages

- English – Fluent
- Kannada – Native
- Hindi – Intermediate
